

Amberon have always been proud to be involved with our local communities, not just on the road but in the playgrounds and on the sports pitches around the country.

Recently the Truro depot had a very productive day assisting two local projects. Our management team organised a morning assisting Courtlands Special School in Plymouth with learning about road safety.

The children really enjoyed our interactive session in the school playground using the road signs and cones and looking at our Renault Twizy Vehicle.

In the afternoon we took the Renault Twizy electric vehicle to Tavistock College. A group of students are undertaking an ambitious project to build an electric vehicle to compete in the Greenpower IET Formula 24 Challenge. The students found it very helpful and interesting to take a good look at the Twizy and hopeful get some good tips for their event at Rockingham later in the year.

Over the years Amberon have supported many good causes over the years; charity challenges are regularly supported both in terms of logistical support and equipment loans as well as cash donations. Recently we have supported South Wales fireman Gareth Bridgewater with a total of 10 Endurance Challenges that saw him raise over £20,000 for Velindre Cancer Care.

Just a selection of the youth sports teams we support:

- Mynydd Isa Galaxy U15s (pictured Right).
- Paignton Rugby Club U15s
- Pontardawe FC Girls
- Roselands FC U13s
- Tonmawr RFC Juniors
- Blackwood RFC Tots
- Isca Hockey Club
- Conway Borough Academy U11s
- Runcorn Linnets U15s (below)

- Timperley Boneshakers Cardiac Risk in the Young Sponsored Bike Ride – Rider Support Vehicles! (above).

“The talk that Jay from Amberon gave the students kept them really entertained and was very useful. It was a very positive afternoon and we can’t thank Amberon enough for their support.”

Mr P Keegan, Head of Faculty, Tavistock College.

“The children had a fab time looking at and exploring the vehicle. Three separate school classes came out to visit and it could not have been better timed as many were studying 'world of work'. We are Very grateful for the cones and sign and are very much looking forward to using them for our road safety.”

Izzy Cramp, Courtlands School, Plymouth.
